Projects

Cotelligent India Pvt Ltd (TechDemocracy LLC)

Latest

Employee/Project Management System (S & P Global Client) – Current Project
Sr Full Stack Developer
HTML5, CSS3, SASS, JavaScript, Angular 14.x, NodeJS(Express), MongoDB
Jira for Project Management

This is a web application that we are building and managing for our client- **S&P Global** to manage associates and projects for their organization. We used Angular 14+ for Front-End, NodeJS(ExpressJS) as Backend technology and MongoDB for database.

TechDemocracy Website – Current Project
Sr Full Stack Developer
HTML5, CSS3, SASS, JavaScript, Angular 14.x, NodeJS(Express), MongoDB
Jira for Project Management

https://techdemocracy.com/ is the official website of Cotelligent's Parent company – TechDemocracy that we have built and manage. We have built the website from Scratch with complex Features like Emailer. NodeJs is the backend for this. The website is fully functional and SEO compliant. MongoDB is the Backend database.

Intellicta
Senior Full Stack Developer
HTML5, CSS3, SASS, JavaScript, Angular 11, NodeJS(Express JS)
Jira for Project Management

Intellicta is a product of TechDemocracy Company
A First platform to Deliver Enterprises a Holistic Assessment of their Cybersecurity, Compliance, Risk and Governance Situation
I am working as a Senior Front End Tech Lead with Tech loving bunch of UX designers, UI developers and Backend developers, in building Product web platform and reusable design system with UI components, and integration with Rest APIs and deploy the app on server. I work with team to maintain the application in Good shape in terms of performance and usability.

I work on and manage various client applications too.

Tavisca Solutions Pvt Ltd

ORXe (Tavisca Solutions)
Front End Developer
HTML5, CSS3, JavaScript, BackboneJS(wrapper library), Angular 6.0.
Jira for Project Management

ORXe is like a platform for different clients for the parent company(CXLoyalty), I worked as Senior front end developer building and customizing the web application as per the requirements of different clients. I communicate with backend and fetch REST APIs, perform various operations with data and display on front end using Angular and other JS libraries. I also work on most of the front end bootstrapping and theming CSS for different clients.

TATA CONSULTANCY SERVICES

FrescoDocs and Mobile apps
Front End Developer
HTML5, CSS3, AngularJS, Ionic Framework, Apache Cordova Plugins, Gulp, Bower, NPM

FrescoDocs (official website https://www.fresco.me/) is a light weight Document storing and sharing web and mobile app being built for making the document sharing easy for users. Working on Hybrid app also which is being built using HTML5, CSS3, JS - AngularJS on Ionic Framework and used Apache Cordova Plugins.

GE OBSO
Front End Developer
HTML5, CSS3, Grunt, Yeoman, Bower, NPM, Angular, Bootstrap

We created a web app for GE Oil & Gas for their machine part management. The old UI was hard to use and slow. Our team created an easy to use UI & applied games principle in that app to motivate users using the new platform.

Knome
Front End Developer
HTML5, CSS3, JavaScript, SASS, Slim.

Knome is an enterprise social collaboration platform for TCS. I have worked as a Frontend developer, developing modules using HTML5, CSS3 and JavaScript.

ICICI
Front End Developer
HTML5, CSS3, JavaScript, AngularJS.

ICICI is one of the clients for TCS, I worked for ICICI to build internal applications (both web and mobile) like iMobile application. I communicate with backend and fetch REST APIs, perform various operations with data and display on front end using AngularJS.

Achievements

- I was part of the Front-End developers team for **TCS - GE OBSO** which won Best Project of Account-2015
- *Monthly Shout out award* and *Monthly Performance awards* at **Tavisca Solutions**
- *Rookie award* for positive accomplishments and quick learning for being part of the current project in **Cotelligent India**
- *Star Performer award* for implementing Front End architecture and Design System in current project(**Intellicta**) in **Cotelligent India**
- *The Highflyer award* for improving Front End Design System and implementing features and enhancements in current project(**Intellicta**) in **Cotelligent India**
- *Customer champion award* for delivering **Okta-integrated React** application and maintaining good communication while working with Clients@ **Cotelligent India**
